Customer Reviews

I bought this for a domestic violence seminar at my law school and it is, so far, an interesting read. Most of the book has been studies and analysis of statistics for domestic violence victims/survivors. If you want to learn how to prosecute those charged with domestic violence, this is probably not the best book. But if you want to understand why it happens and how it affects those of different religions, cultures, ethnicity, age, and economic status, then this is a good reference.
