There are lots of puzzles to help keep your mind sharp. I rated this 4 stars as there are SEVERAL puzzles in this book that were in a previous book I did recently (this is the 3rd book I've done from Brain Games). They're kind of expensive if you keep paying for "repeat" puzzles. Still lots of fun.

I like quiet fun, and something I can relax with while watching a movie or waiting in some public place. big and colorful with different levels for the kind of challenge you may be up to. sometimes you want it easy other times more difficult. it's a great buy and wonderful exercise for the mind. I buy from the seller again for sure. great product.

I've had several of these and have to say there's something pretty awesome about just whipping this book out and solving the visual puzzles by myself, or with a friend. You have several levels from easy to hard (pretty much fewer, bigger changes to many more smaller ones), as well as the puzzle types: 1. Find X changes in the picture 2. Locate the one change in 4-6 (almost identical) mini pictures 3. Compare one page to another with the same image for 1 or more changes There are a ton of different subjects and image types, it can definitely get addicting and sometimes frustrating (with one of the changes right in front of your face!). If you love visual puzzles with the versatility to keep you entertained for short or extended periods of time, check this series out.

I LOVE these puzzles! I do them when I need a brain shut-down for a while. (Bedtime, boredom, lying around at the beach, etc). Photos are large, colorful, glossy and easy to see. There are different levels based on experience. Easy to very difficult. When my niece stays over, she enjoys doing these as well. I also like that these puzzles aren't so absurdly difficult, that you feel like giving up and never picking up the book again. I enjoy these, and have done every single book published, so am eagerly awaiting the next.

I LOVE THESE BOOKS, THEY ARE REALLY ENTERTAINING. I'M ALWAYS DOING THESE IN MAGAZINES I FIGURED WHY NOT SEE IF THEY HAVE BOOKS AND THEY DO. LOTS OF FUN & PERFECT FOR THOSE DAYS YOU'RE UNDER THE WEATHER AND STUCK IN BED! DO THESE PUZZLE BOOKS FOR HOURS OF ENTERTAINMENT!!!

I like to challenge my brain and this puzzle book really did it. I wish it were drawings instead of photos because it was a bit challenging to mark up clearly. Maybe I ought to go back to Highlights magazine:)

I purchased a number of these books for my daughter who is now deceased. She greatly enjoyed doing these puzzles and they provided hours of entertainment for her. Sometimes we shared the puzzles while waiting in numerous doctor's offices. I kept a couple of them and put them away in a memory box after her death.

Unfortunately I did not realize that over half of the book would be written in...and all of the puzzle mysteries solved. I knew the pages may be crumpled or wrinkled or there may be some damage to some pages, tears, or such, but I did not think that the whole purpose of the puzzle book...solving

differences in pictures would already be done..Very disappointed and I paid more than half of what the original price was.
