If you think this is a 'magical' book to help you win the lottery, it's not. In fact, it doesn't 'predict' winning numbers but gets behind the laws of the universe and how our thoughts affect them. I liked it because it shed light on how my thoughts create my future, something which one may read in other books, but the fact that it focuses on the lottery winning mentality helps the reader to understand the role motives, feelings and goals play in winning.

I have been studying the Law of Attraction for 5 years. And I have read many books on the subject. This book is one of the best books on the Law of Attraction that I have ever read. The author goes through the basics, and then really gets into the specifics on how to get what you want. He includes detailed clearing processes and methods that clear out limiting beliefs. This book is not going to give you the lottery numbers or something like that. If that is what you are expecting, keep on looking. What this book contains is tools and insights to be able to maintain a positive attitude and go forward from this moment on, creating and expecting a life full of goodness and promise.

Many people never experience the Law of attraction due to being filled with so many obligations that it seems a tough challenge to stop for long enough and explore the positive attributes of how the Law of Attraction works. For everything that goes wrong in life, there is always a positive spin that can be found and if you want to use positive energy to win the lottery, you need to minimize negative spin and the effect of negative energy. Attracting money into your life using the law of attracting is very possible. In order to utilize this law properly, you first need to realize how this law works. The Law of Attraction won't work if the energies around you are always negative, Even it temporarily negative, it lessens the power of positive energy. The Law of Attraction is a powerful tool that can be applied in all aspects of life and when done correctly can change your life. When applied to a specific thought this law will assist you in manifesting your specific desire. This book opens your mind to how you can win the lottery using this powerful tool. Using this guide will set you on the path to financial freedom. The author breaks down the fundamentals of the Law of Attraction and explains how you can apply the law to create the life you desire. The author also explains why some people have been unsuccessful in the application of this law. It is important to know how to change negative energy into positive energy and the author encourages you to enhance your manifestations with all the positive energy that you produce in your life. I will be reading this book again and again.

This books' context is not mainly about winning lottery; it's more on having a positive perception to attract whatever endeavor you have in mind. Envisioning its end result incessantly until it materialized. I liked that method of rewiring your mindset to have a positive mentality always. It's an

interesting subject to read!

I've been hearing a lot of things about this law of attraction but actually doesn't believe it myself. I admit I'm one of those skeptics about this one. This book however will make you think otherwise and will make you believe that law of attraction really does exist and is a part of our lives, if we just pay attention to it. It is stated in this book that the law of attraction plays a very fundamental role in our day-to-day life more so in the helping you vibrate positive frequency that may affect almost every aspect of your life. Well, I believe that this rings a truth. I may not believe in law of attraction before but a positive mind, i believe, will bring you what you want provided that you work your way to achieve that. Now I understand that law of attraction works side to side with positivity. You basically attract what you think. This book is a great way to reestablish your beliefs in the law of attraction and how it can greatly affect how you live your life.
