Customer Reviews

Received the item in perfect condition. Was packaged well, and arrived quickly. This version of Moonlight Sonata is my favorite. It combines the original Beethoven notation with a modern understanding, and de-clutters the pages. This version fits a little more on each page, doing away with things like the repetitive peddle marks and roman numerals used for analyzing the piece. It's clear and easy to read. I recommend this to anyone looking to learn even just the first movement. Take care of it, and when you are ready you'll have the rest of the Sonata there for you to learn.

The Complete Original Version of this most beautiful music to play. You will be quite happy as soon as you receive it. I immediately sat right down, ignored everything else, and played this piece over and over. It even shows Beethoven's notations. 23 wonderful pages!

Full version, original key, BEAUTIFUL piece!

Perfect condition. Just as described.

the moonlight sonata has to be my favorite piece. I place this all the time. its written in a well organized way, and not confusing at all. the first 2 movements are pretty easy, but the last its quite difficult.

Purchased as a gift for a young aspiring pianist who loves Beethoven. The score appears to be the original version, and a great article about the piece and its composer is included.

My son asked for this piece to learn. Although he said it is difficult he will work on it and will take some time to learn

As advertised.
