Customer Reviews

I got my hands on a print copy of this book last year, and I've added it to my library of reference materials. Sean Hinchey was a reader at the ICM agency for several years, and has read for screenplay competitions. That to say, he's seen it all, read it all. His pointers are concise and easy to understand. Plenty of reference materials here from successful films. For screenwriters trying their hand in the contest circuit, I recommend getting a copy, reading it through and watching the films mentioned. Christopher Lockhart, senior story editor at William Morris Endeavor gives the foreword. Definitely worthwhile!

I found the book very helpful in discussing screenplay structure and what those reading it -- whether a judge in a contest, agent or producer -- look for. It could, however, use some good proofreading. There are a lot of small, but slightly annoying, errors -- and if you're going to try to sell (or enter a

contest with) your screenplay, those should probably be avoided.
