Customer Reviews

This is a book I needed for my American Literature course. If I wasn't taking that course I would not have ordered this book. This book does give good examples to write about literature so if that is what you need to do, this is your kind of book.

This is a great little reference book with lots of definitions. It's an amazing little book. It's unbelievable that they were able to pack so much important information into such a small book.

Exactly what was expected and on time, no complaints as far as delivery time or the product itself. Thanks!

Service was crap. The book took forever to get to me, and it was wrapped in a paper grocery bag. The book is new. Quality of the book is great but the processing is the issue.
